This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

COMPTROLLER'S REPORT.

STATE OF CONNECTICUT,
COMPTROLLER'S OFFICE,
October 14, 1898.

To His Excellency, Lorrin A. Cooke, Governor:

Sir: — In compliance with the statutes I have the honor to present herewith my annual report of the transactions of this department for the fiscal year commenced October 1, 1897, and ended September 30, 1898.

RECEIPTS AND EXPENDITURES.

The receipts from all sources for the Civil List Funds, during the fiscal year ended September 30, 1898 (not including the balance of one hundred twenty-three thousand, twenty-seven and fifty one-hundredths dollars ($123,027.50) in Treasury October 1, 1897), were two million, six hundred twelve thousand, three hundred eighty-five and fifteen one-hundredths dollars ($2,612,385.15), an increase over the previous year of two hundred thirty thousand, eleven and forty-eight one-hundredths dollars ($230,011.48).

The expenditures during the same period were two million, two hundred seventy-one thousand, five hundred twenty-one and fifty-one one-hundredths dollars ($2,271,521.51), a decrease from the previous year of two hundred seventy-eight thousand, five hundred fifty-eight and fifty-one one-hundredths dollars ($278,558.51), notwithstanding the war expenditures of about one hundred twenty thousand dollars ($120,000), leaving a balance in the Treasury to the credit of the Civil List Funds on the 30th of September, 1898, of four hundred sixty-three thousand, eight hundred ninety-one and fourteen one-hundredths dollars ($463,891.14).

The excess of receipts over expenditures during the past year has been three hundred forty thousand, eight hundred and sixty-

three and sixty-four one-hundredths dollars ($340,863.64), making a corresponding increase in the balance in the Treasury.

In submitting this, my last report, I think it may be well, after an experience of four years in this department, to make a few suggestions and recommendations that experience has shown me might be of some advantage to the State, as well as to my worthy successor.

It may seem strange to the average citizen when I say that something will soon have to be done to give more room and better accommodations to the increasing business of the State government. Large and adequate as the Capitol may seem, the business of the State has outgrown the present plan of its interior. The General Assembly is constantly creating new commissions and departments which need quarters. Some of the old departments are now so cramped with the increase of business that they are seriously inconvenienced. In many cases three different legislative committees have been compelled to occupy one room.

Two years ago I tried to meet the emergency by furnishing and fitting two or three rooms in the fourth story on the east end of the Capitol, but as they were out of the reach of the elevator it was difficult to have them occupied. I would recommend that a special committee be appointed by His Excellency, or by the General Assembly, or that the legislative committee on Capitol furniture and grounds be instructed to take these matters into consideration, and recommend such changes as will bring the necessary relief, and relieve the embarrassment of the Comptroller as much as possible. It would be well, also, to take in consideration the sanitary part of the building, and the lighting of the same. The exterior of the building was found to be much in need of repairs; the mason work, roofs, and all projections have been quite thoroughly repaired, and ought not to need more attention and expense for a number of years.

By following the recommendations of His Excellency in his inaugural message to the General Assembly as to State expenses and expenditures, there has been brought about some wise and good legislation, as the condition of the finances show by the re-

port of the State Treasurer. And we are convinced that more can be done in the same direction, and enable the State to be more liberal in appropriations for objects where the State as a whole will be benefited, one of the most important of which is good roads.

The law known as the specific appropriation bill is a good one and ought to be continued with a few amendments and additions, for I believe the result will prove a great saving to the State, and help relieve the responsibility of this office.

The Board of Control is also a wise feature of the bill, for, if any appropriation is too small to meet the necessary requirements, it can increase the same so that the State's interests may not suffer.

Perhaps one of the greatest losses that this department has ever had, and one which seemed almost insurmountable, from a business standpoint, was the death of Emerson W. Moore, late chief clerk, a man in whom I soon learned to have the most implicit confidence. He was always looking for the right, and best interests of the State. It can truly be said, "He was an encyclopedia," for one of the most trying and responsible departments in the State government.

I can hardly say too much in praise of the valuable services and help I have received from John H. Wadhams. No man could possibly take more interest in the many trying and perplexing duties of this office, for which I shall ever feel grateful.

Nor do I think there was any mistake made in the selection of Mr. F. Clarence Bissell as chief clerk. He is a thorough accountant, and has brought about important changes in keeping the accounts of this department, which the increase in the volume of business in the last few years seemed to make advisable.

Miss Kate T. Ryan, stenographer, has rendered valuable services in this department. Her experience and efficiency were almost indispensable during the illness of Mr. Moore.

As to the rest of the employes that came under my charge, they have (with very few exceptions) been faithful and true.

Respectfully submitted,

BENJAMIN P. MEAD,

Comptroller.
